National Conference
New Challenges in English
Studies in Algeria: TEFL, ESP, Translation,
Civilization and Literature
February 14th, 2022

Today, Algeria is witnessing various changes in a myriad of fields stretching from the purely political to the utterly cultural. Obviously, the field of English studies in Algeria is no exception since it is compelled to adapt itself to all these changes, and by the same token taking advantage of these changes by contributing to their development. As a corollary, it has given birth to new perspectives, but also to challenges, leading to further concern for the role of English studies in Algeria.

The main objective of this national conference is to show how the adaptation of English studies to the new changes is taking place in Algeria through the discussion of topics in relationship with the following fields: TEFL, ESP and Civilization and Literature. It also aims at shedding light on the new perspectives and challenges that resulted from the prevailing changes.

Topics of interest include, but are not limited to:

- 1-New Perspectives and Challenges in TEFL
- 2-New Perspectives and Challenges in ESP
- 3-New Perspectives and Challenges in Translation
- 4-New Perspectives and challenges in Civilization and Literature
